“DO-IT-YOURSELF” DESIGN SERVICE

This method is designed for those customers with small or limited areas needing suggestions, recommendations, or cost estimates. We can offer assistance here at the nursery, if the customer will bring in the following:

- 1. Measurements with sketch on 8 1/2”x 11” paper (or larger.) Please show all areas with measurements of width, length and depth.**
2. CURRENT DIMENSIONAL PICTURES showing front and side elevations of just the areas you want done.
3. Clearly label which direction the house faces.
4. Exposure to light and wind.
5. Soil type in all areas.
6. Idea of budget limitations.

Designs start at \$50.00

PROFESSIONAL DESIGN SERVICE

A designer will visit your home or business, take all the proper measurements, photographs, look at your exposures to light and wind, and analyze your soil type. In a short conversation with the customer, we will discuss plant likes and dislikes, ideas that you have in mind, and get an idea of a working budget... all to design the right plan for your unique situation and surroundings.

A finished design takes approximately 14 days. At this time we will call you into our garden store for your design presentations. If you are interested please call or stop in and make an appointment with Keith Fager or Ken Gilson.

Designs start at \$125.00
