We are not obligated to replace any plants due to loss of time in planting, lack of time in watering, abnormal weather conditions, vandalism, theft, fire or animal damage.

Plants damaged by the acts of nature, such as tornados, lightning, winds, or flooding, are not warranted.

It is the owner's responsibility to provide sufficient watering, adequate drainage, insect and disease treatments, mulching and a weed free environment for the continuous vigor of the plants.

Plants must be totally dead in our judgment. Some plants lose their leaves and still recover. The cultural practices of planting and watering must be used. Warranty is void if watering and other sound practices are not followed.

Plants will be warranted only one time. After one time replacement, this warranty is void due to possible soil toxicity or other environmental factors that we have no control over.
